SUBJECT: BLUE LANTERN LEVEL 3: POST-SHIPMENT END-USE CHECK
ON LICENSE 050013982

REF: 2006 BLUE LANTERN GUIDEBOOK

[1](#)1. This is an Action Request. See paragraphs 2-4.

[1](#)2. The Department's Office of Defense Trade Controls Compliance (PM/DTCC) requests Post's assistance in conducting a post-shipment check on license 050013982 for the export of International Traffic in Arms (ITAR)-controlled night vision devices (NVDs) to Bosnia and Herzegovina. Post is requested to complete this Blue Lantern inquiry within 45 days. Lack of response to a Blue Lantern inquiry will affect pending and future licenses involving parties to this license.

[1](#)3. Reason for request: Due to the sensitivity of the equipment and the potential for their diversion or misuse, the Department of State and the Department of Defense have policies of carefully scrutinizing NVD export licenses and taking steps to ensure proper end-use. Provisos attached to these licenses obligate the end-user to secure the NVDs from loss, theft, or unauthorized access, and to perform routine inventory checks by serial number. These records are to be made available for review upon U.S. Government request.

[1](#)4. Action: Post is requested to make inquiries to confirm the continued possession of the NVDs by State Investigation and Protection Agency. Verify the serial numbers of the NVDs and confirm that all of them are secure and being used only for the purpose stated on the license. Department further requests that Post conduct a site visit in order to gather and verify this information. If a site visit is not possible, please obtain official, written confirmation of receipt and possession of the NVDs by the end-user, and inform the PM/DTCC case officer. Finally, establish the bona fides of unfamiliar Foreign Intermediate Consignee MIBO Komunikacije doo in this transaction.

The following questions are provided as guidance:

--When was MIBO Komunikacije doo established and who are its principals?

--What is the nature of its business? What other types of defense-related items does it handle?

--What types of organizations are among its typical customers and where are they located?

--Does the company have secure facilities and proper accounting and security procedures for handling sensitive United States Munitions List (USML) items?

--What is the exact end-use for these USML items?

--Does MIBO Komunikacije doo understand the restrictions on USML items, especially the prohibition against unauthorized re-transfer and re-export?

END ACTION

15. Details of license application:

DTC Case: 050013982

QUANTITY/COMMODITY:

2 ATN PS14-3A GEN 3, Night Vision Monocular, Multi-purpose System with Advanced Package 1. Figure of Merit less the 11250.
